

Iblock for cars

Car anti-theft control unit for petrol engines

iBlock is an additional anti-theft car compatible with gasoline engines. iBlock uses a sophisticated chip tuning which protects the vehicle from theft to robbery and integrates the function of increase in torque (NM). The electronic anti-theft system is based on a correspondence of signals between the control unit and the transponder that the driver will always with him. In case of theft of the car, the attacker will not be able to walk away because the anti-robbery unit iBlock not getting any signal, disable the accelerator of the car within a minute. The system can be disabled by the driver owner in case of blocks unpleasant or emergency situations.

The control anti-theft iBlock

iBlock is the first additional unit antirobbery increase with integrated torque that makes use of an advanced chip tuning.

Thanks to the intelligent connection system between the ECU and transponder, the safety of the car is completely guaranteed: If an attacker tries to steal the car, iBlock within one minute turn off the accelerator, so the car will no longer be usable.

Installation

Installing the electronic antitheft car iBlock is simple: with special cable is connected to the accelerator pedal not interfering or compromising the operation of the controller of the original series.

The kit includes a transponder equipped with batteries slim guaranteed 2 years and a special additional electronic switch that allows the owner to disable the control unit iBlock in case of emergency.

Engines on which you can install the control unit

The electronic module robbery can be installed on all cars equipped with electronic throttle control.

Example of wiring harness installation

Through the original wiring supplied installation time of the add-on module Mpower Sprint is very low, it will not be appropriate to make changes to the original car.

Package Contents

- Add-on iBlock
- Wiring the original installation
- 02 Transponder Key
- Processing Software (Reserved exclusively for installers only)
